### OLD PASTURES.

It is a Good Idea to Cut Down Woods  
With the Mower.

When a farmer has about three men  
work to do he has little time to put  
fertilizer on his farm, and no master how  
well he likes a neat appearing farm in  
mind, let the finishing touches go until  
he is through with the crop making  
and crop saving.

Henry Dyer, employed by the Italian  
Marble company at Middlebury, had  
just recovered from a broken leg, when he caught his leg between a  
moving car and a mill door, fracturing it  
below the knee.

Truman L. Eels, a member of the Middlebury  
band for many years and a musician of  
considerable merit, has composed a march,  
"Isley's March," named in honor of Col. S. A. Isley, a prominent  
resident of Middlebury.

If the weather is hot, this cleaning up  
should be done early in the morning  
and when the heat tempts the broiling  
police operations along that line may  
be suspended until the following morning.

There will be some scythe work  
to be done in the close corners, and  
that should be done in the cooler part  
of the day, for what seems there in  
going to the limit of endurance of  
things of this sort?

It is a good idea to run the mower  
over the pastures and cut down the  
weeds that are sure to be there pumping  
the fertility and moisture out of the  
soil to no good purpose. I have  
seen pastures ten and fifteen years old  
that were almost perfection, growing a  
heavy crop of grass every year and  
being entirely free from noxious weeds.  
They were kept in this condition by  
being reseeded in alternate years and  
having the weeds kept down so that  
they did not make seed, says a writer in  
Farm and Fireside. The owners have  
told me that weeds by the million  
sprang up the first three or four summers,  
but were clipped often enough  
to prevent their going to seed, and  
with that they had no trouble at all  
with them.

The vital statistics for the first six  
months of 1907 follow: Marriages, 31;  
births, 22, male, 9; female, 13; deaths,  
21, male 12, female 9; deaths over 90  
years, 1; between 80 and 90 years, 5;  
between 70 and 80 years, 3; between 60  
and 70 years, 6; youngest death except  
one still birth, 25 years.

Ambitious Brandon claims to be  
mother of five inventions. It is stated  
the first electric motor was made there  
and the first idea of electricity as motive  
power was there conceived and suc-  
cessfully operated. It is said also to be  
the birthplace of the marble saw, the  
first coke stove, and a gas heater complete  
the list.

Silas Whitman of South Londonderry  
celebrated his 90th birthday anniversary  
August 13th. All of his children were  
present on this occasion, Mr. and Mrs.  
A. D. Whitman of Orange, Mass., Mr.  
and Mrs. C. A. Whitman of Adams,  
Mass., Mrs. Orrell Tyler and Mr. and  
Mrs. E. F. Ring of South Londonderry.  
There were also several grandchildren  
and a few friends present.

The old soldiers insist that it is the  
only proper place for the shaft to stand.  
They declare furthermore that, far from  
being in the way there or marring the  
park, it would add immensely to the  
aspect of the plot. It is to be of ar-  
tistic design and an imposing height  
and something they say of which many  
a large town would be justly proud.

It is the sentiment among the mem-  
bers of the post that if the memorial  
is to be stuck into some back lot, they  
might just as well take the money sub-  
scribed for it and distribute it back  
among those who have put their names  
on the list of donations. They still  
have hope, however, that some way  
may be devised whereby the park pro-  
ject may yet be carried through.

The water in the Winnipesaukee river at  
Montpelier is the lowest it has been for  
five years. The Consolidated is oper-  
ating its steam plant at Montpelier and at  
Middlesex, generating something like  
3,000 horse power, with about 750 horse  
power generated at Bolton Falls. The  
Middlesex dam has been repaired and  
the canal cleaned out. It was full of sand,  
not having been cleaned in seven  
years. Many carloads of sand were re-  
moved and a large gang of men has been  
employed on the work.

"Yes, baron," was the reply, "there  
remains a little casket."

"No doubt used as a deposit for the  
jewelry of some eminent personage?"  
inquired the baron.

"No, sir; that is where I put the tips  
given to me by visitors to the museum."  
Paris Journal.

**Catarrh Cannot Be Cured**  
with LOCAL APPLICATIONS, as they cannot  
reach the seat of disease. Catarrh is  
an intestinal disease, and can only  
be cured if you take internal remedies. Hair's  
Catarrh Cure is taken internally, and acts di-  
rectly on the blood and mucous tissues. Hair's  
Catarrh Cure is a nostrum, not a nostrum. It has  
been prescribed by one of the best physicians in this  
country for years and is a regular prescription.  
It is composed of the best and most valuable  
herbs and roots. The blood purifies, acting di-  
rectly on the mucous surfaces. The perfect  
combination of the two ingredients is what  
gives Hair's Catarrh Cure its unique qualities.  
Dose, half a Family Pill for constipation.

Several families in the west and east  
part of Warren were badly frightened  
by seeing a crazy man running through  
their fields and pastures last Friday. He  
was captured at East Warren near Al-  
most Gove's by Constable W. E. Dana  
and taken to the village. Grand Junior  
O. M. Jones telephoned to Waterbury  
and learned he escaped from the asylum  
last week Tuesday. He was formerly  
from Bristol and was on his way back  
only considerably out of the way. He  
was taken back to Waterbury Sunday  
for safe keeping.

Stories of the great Bristol meteor  
keep bobbing up. Richford was treated  
with an electrical phenomenon at the  
exact time the meteor made its memo-  
rial flight. The dynamo in the grist  
mill stopped, every lamp in the Ameri-  
can house and Kelley's insurance office  
was burned out, the metal ceiling in the  
hotel office was scorched and a hole  
was burned through a metal rosette in  
the same room. All other places in town  
were free from unusual freaks on the  
part of the electrical current and no  
mystery is forthcoming for the stunts  
done in the places mentioned.

Nearly 300 people attended the  
reunion of the teachers and scholars of the  
"Joe's brook" schoolhouse at East Barre  
Thursday afternoon, including 75  
of the former pupils of the school, and  
15 teachers. Two of the oldest pupils,  
John M. Bandall of East Barnet and Henry  
G. Jones of Monroe, N. H., attended  
the school there together over 90 years ago, while four generations of  
the Randall family were present. Martin  
D. Gibson presided at the post-prandial  
exercises and addresses were given  
by the teachers, two of whom had  
taught there forty years ago. The ex-  
ercises closed with a poem sent by Milo  
A. Gibson, now a student at the university  
of Marburg in Germany. Before  
adjourning a permanent organization  
was formed, with Martin D. Gibson pres-  
ident, and Annie Warner secretary.

Long Family Reunion at Fayston.

The usual basket picnic of the Long  
family and their friends was held at the  
convenient residence and grounds of Mr.  
and Mrs. E. J. Long in Fayston last  
Thursday. The day was perfect and 100  
persons went for the 42d time for this  
yearly festival, some of the 8th genera-  
tion in the family being present. The  
tables were set in the orchard where a  
bountiful dinner was generously served and  
enjoyed. The meeting with friends,  
music, base ball and other games made  
this day one of the best on record. Among  
those present were Mr. and Mrs. William  
Fink, Maryville, Mo.; M. J. Long, Mrs. Myron Chase and Misses  
Ethel and Lizzie Long of Middlesex.  
E. R. Long of Warren of the second  
generation was present, John and Margaret  
Long of Middlesex. The first generation  
came from Ireland 77 years ago, and  
resided a few years in New Brunswick,  
then came to Fayston, bringing five sons  
and five daughters, where he resided  
until his death. He was a man of strong  
religious convictions and sterling integ-  
rity.

"Regular as the Sun."

is an expression as old as the race. No  
doubt the rising and setting of the sun  
is the most regular performance in the  
universe, unless it is the action of the  
liver and bowels when regulated with  
Dr. King's New Life Pills. Guaranteed  
by Red Cross Pharmacy. Price, 25c.
